Oklahoma City, Ok. 73105

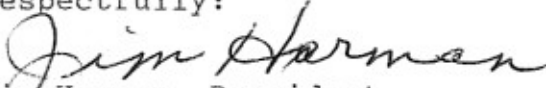

Hon. Drew Edmondson:

Congratulations and thank you!

The United States Supreme Court has declined to get involved in Oklahoma's law suit against poultry companies. We feel this is a direct result of your diligence and persistence. Who knows what stalling tactics they will come up with next? Senate Bill 1703 (Sen. Henry Coates, R. Seminole) proposes the oxymoron that chicken litter is not a hazardous waste. Senate Bill 1785 would replace the successful Scenic River Association's management with something far removed from the streams that are to be protected.

We appreciate your efforts to protect our watersheds/gro
waters.

Respectfully:

Jim Harman, President
Indian Nations Audubon Society
